FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by FCC For Extension Under Delegated Authority 5 CFR Part 1320 authority

October 13, 1995.

The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and

clarity of the information collected and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

The FCC is reviewing the following information collection requirements for possible 3-year extension under delegated authority 5 CFR 1320, authority delegated to the Commission by the Office of Management and Budget (OMB).

Written comments should be submitted on or before December 19, 1995. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

Direct all comments to Dorothy Conway, Federal Communications, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to dconway@fcc.gov.

For additional information or copies of the information collections contact Dorothy Conway at 202-418-0217 or via internet at dconway@fcc.gov.

OMB Approval Number: 3060-0436.

Title: Cordless Telephone Security Coding.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 100.

Estimated Time Per Response: 2 hours.

Total Annual Burden: 200 hours.

Needs and Uses: Cordless telephones must incorporate digital security coding to protect the public switched telephone network from unintentional seizure and dialing, and user's from unintentionally ringing. An attestation of compliance, and the means and procedures used to ensure the required protection must accompany any application for authorization filed for the subject equipment.

OMB Approval Number: 3060-0004.

Title: Environmental Information Collection Requirements Sections 1.1307, 1.1308, 1.1311.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Individuals or households; State, local or tribal governments; Not-for-profit institutions; Businesses and other for-profit; Small businesses or organizations.

Number of Respondents: 1,156.

Estimated Time Per Response: 2.1 hour.

Total Annual Burden: 2,428 hours.

Needs and Uses: Under the terms of the National Environmental Policy Act (NEPA) of 1969, the FCC is required to determine whether the transmitters it licenses or authorizes significantly affect the quality of the human environment. Since the emission of potentially hazardous radiofrequency radiation is one of several possible environmental effects, the Commission has established rules for evaluating human exposure to RF radiation from FCC-regulated transmitters. The environmental information required by section 1.1307 is reviewed by attorneys, engineers and paraprofessionals to determine whether the environmental evaluation is sufficiently complete and in compliance with the Commission's Rules to be acceptable for filing. If collection of this information were not made the FCC would not ensure compliance with the National Environmental Policy Act (NEPA), specifically, to minimize the potential for significant environmental impact from radiofrequency (RF) radiation from FCC-regulated facilities.

OMB Approval Number: 3060-0421.

Title: Price Cap Rules.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 13.

Estimated Time Per Response: 20 hours.

Total Annual Burden: 1040 hours.

Needs and Uses: Under the Commission's price cap rules, tariffs for new services are supported by new service showings which may include the results of net revenue test. As part of the net revenue tests, carriers project their future revenue and costs for new services. Carriers then file the required reports to enable the Commission and the public to compare their actual revenues and costs with their earlier projections. The Commission staff uses these reports to gauge the accuracy of these carriers' earlier forecasts so that it can better evaluate the reliability of future new service showings. Without such an evaluation, the risk of unreasonable or otherwise unlawful rates would be significantly increased, to the detriment of those who subscribe to these services.

OMB Approval Number: 3060-0307.

Title: Section 90.629(a) Extended implementation period.

Form No.: N/A.

Type of Review: Extension of existing collection.
